

Cadley Kids Club

Fire Safety and Risk Assessment

Cadley Kids Club understands the importance of fire safety. To this end:

- Staff are aware of the location of all fire exits, the fire assembly point and where fire safety equipment is stored.
- Children are introduced to the fire safety procedures during their settling in period and through regular fire drills.
- Fire drills are conducted at least once a term
- All children are shown the location of fire exits and the fire assembly point.
- Fire doors and fire exits are clearly marked, are not obstructed at any time and are easily opened from the inside.
- Fire doors are kept closed at all times but never locked.
- Fire extinguishers, fire alarms and smoke alarms are regularly tested in accordance with manufacturer's guidance.
- All fire drills are recorded in the **Fire Drill Log**.
- The Club has notices explaining the fire procedures which are positioned next to every fire exit.

Fire prevention

The Club will take all steps possible to prevent fires occurring by:

- Ensuring that power points are not overloaded with adaptors.
- Ensuring that the Club's No Smoking policy is always observed.
- Checking for frayed or trailing wires.
- Checking that fuses are replaced safely.
- Unplugging all equipment before leaving the premises.
- Storing any potentially flammable materials safely.

In the event of a fire

- A member of staff will raise the alarm and call the emergency services.
- The children will immediately be escorted out of the building to the assembly point using the nearest marked exit.
- The register will be taken and all children and staff accounted for.
- If anyone is missing from the register, the emergency services will be informed.
- If the register is not available the manager will use the emergency contacts list to contact parents or carers.
- No attempt will be made to collect personal belongings, or to re-enter the building after evacuation.
- The premises will be checked by the Fire Safety Officer and the register will be collected, providing that it is safe to do so.
- The Fire Safety Officer will close all doors and windows to prevent the spread of fire when they leave the building if it is safe to do so.
