

# Cadley Kids Club Internet Permission Form

As part of our duty to safeguard all children who attend after school club, we need written permission for each child to use the internet. Some of the planned activities will require the use of a computer. Our internet within school is protected by a filtering system which blocks inappropriate sites and content from being accessed.

Children will be supervised at all times while using the computers.

Please state below whether you give permission for your child to use the internet.
